ALL REGIONS
REGULATIONS

Northland has a temperate climate with summer water temperatures often above the optimum range preferred by trout. As a result, freshwater fishing is to some extent limited compared to other regions further south. The Northland Fish & Game Council have liberal regulations providing maximum fishing opportunity for different types of angling experience. The region has numerous small river and stream fisheries that hold rainbow and brown trout. Rainbows are inclined to be the dominant species as they are able to tolerate the warmer water temperatures. All methods are allowed in Northland's river fisheries, and the rivers are open to fishing all year round.

Many of the headwater streams in the region are heavily wooded along the banks which keeps the water cooler in the summer months. Angler pressure on these streams is low, offering a semi-wilderness experience in some locations. Angler access to most rivers in Northland requires permission from the individual landowner before you can cross their properties. Landowners are only too willing to grant approval providing you seek prior permission, shut the gates and do not disturb stock. Anglers should check out the Walking Access New Zealand Website <https://www.wams.org.nz/PublicAccessAreas/> before heading out to ensure they know where angler and public access is available.

Early spring, late autumn and the winter offers the best freshwater angling in Northland's reservoirs when the trout become more energetic in the cooler surface waters. Northland Fish & Game undertakes an annual stocking programme of hatchery reared trout into three artificial reservoirs to provide further angling opportunities. All methods are allowed in the reservoirs which are open to angling for 12 months.

Anglers who require further information can obtain access guides through the Council office, sporting goods stores and on the region's webpage www.fishandgame.org.nz

Code of Conduct

Please consider the rights of others and observe the anglers code of conduct

- Always ask permission from the land occupier before crossing private property unless a Fish & Game access sign is present.
- Do not park vehicles so that they obstruct gateways or cause a hazard on the road or access way.
- Always use gates, stiles or other recognised access points and avoid damage to fences.
- Leave everything as you found it. If a gate is open or closed leave it that way.
- A farm is the owner's livelihood and if they say no dogs, then please respect this.
- When driving on riverbeds keep to marked tracks or park on the bank and walk to your fishing spot.
- Never push in on a pool occupied by another angler. If you are in any doubt have a chat and work out who goes where.
- However, if agreed to share the pool then always enter behind any angler already there.
- Move upstream or downstream with every few casts (unless you are alone).
- Fish being returned to the water should be released as carefully and quickly as possible. Ideally leave the fish in the water and remove the hook with long-nosed pliers without handling the fish.
- While catch and release fishing is widely promoted by some as a conservation minded approach to angling it remains the angler's choice. However, the catching of large numbers of fish in a day can impact on individual fish and also on the angling experience for others. Fish & Game advocate hooking and landing a limited number of fish per day.
- Fish being retained should be killed as quickly as possible, ideally by spiking or stabbing the brain slightly behind and above the eye (also known as iki jime - pronounced "iki jimi").
- Always respect the environment, wildlife, other anglers and members of the public.
- Remove waste nylon and personal litter from the river banks and parking places.
- The only way we can protect our rivers in the long term is to CHECK, CLEAN and DRY all your gear before entering another river or lake anywhere in New Zealand.

Remember to treat others as you would wish to be treated yourself!

National Regulations

The Sports Fishing Regulations

These regulations are set to ensure that:

- Fish populations are maintained and that the number of fish caught does not threaten the sustainability of the fishery.
- The quality of the fishing experience is maintained.
- Spawning areas are protected.
- Angling opportunities are not unnecessarily restricted.
- Incompatible methods of fishing are kept separate.
- Anglers use sporting methods.

The main angling rules and catch limits are shown in this booklet, but there are other rules in the Conservation Act, Freshwater Fisheries Regulations and other legislation which affect sports fishing. For example, a current fishing licence is required to fish for the species listed in the First Schedule, and it must be carried with anglers at all times when fishing. The licence is to be produced upon demand by a Fish & Game Ranger.

If you are in any doubt about sports fishing regulations, please contact your local Fish & Game office.

These regulations are approved by the Minister for Hunting and Fishing on the advice of the 12 regional Fish & Game Councils. The Fish & Game licence allows an angler to fish New Zealand wide (except Taupō).
