ALL REGIONS
REGULATIONS

Northland has a temperate climate with summer water temperatures often above the optimum range preferred by trout. As a result, freshwater fishing is to some extent limited compared to other regions further south. The Northland Fish & Game Council have liberal regulations providing maximum fishing opportunity for different types of angling experience. The region has numerous small river and stream fisheries that hold rainbow and brown trout. Rainbows are inclined to be the dominant species as they are able to tolerate the warmer water temperatures. All methods are allowed in Northland's river fisheries, and the rivers are open to fishing all year round.

Many of the headwater streams in the region are heavily wooded along the banks which keeps the water cooler in the summer months. Angler pressure on these streams is low, offering a semi-wilderness experience in some locations. Angler access to most rivers in Northland requires permission from the individual landowner before you can cross their properties. Landowners are only too willing to grant approval providing you seek prior permission, shut the gates and do not disturb stock. Anglers should check out the Walking Access New Zealand Website <https://www.wams.org.nz/PublicAccessAreas/> before heading out to ensure they know where angler and public access is available.

Early spring, late autumn and the winter offers the best freshwater angling in Northland's reservoirs when the trout become more energetic in the cooler surface waters. Northland Fish & Game undertakes an annual stocking programme of hatchery reared trout into three artificial reservoirs to provide further angling opportunities. All methods are allowed in the reservoirs which are open to angling for 12 months.

Anglers who require further information can obtain access guides through the Council office, sporting goods stores and on the region's webpage www.fishandgame.org.nz

Code of Conduct

Please consider the rights of others and observe the anglers code of conduct

- Always ask permission from the land occupier before crossing private property unless a Fish & Game access sign is present.
- Do not park vehicles so that they obstruct gateways or cause a hazard on the road or access way.
- Always use gates, stiles or other recognised access points and avoid damage to fences.
- Leave everything as you found it. If a gate is open or closed leave it that way.
- A farm is the owner's livelihood and if they say no dogs, then please respect this.
- When driving on riverbeds keep to marked tracks or park on the bank and walk to your fishing spot.
- Never push in on a pool occupied by another angler. If you are in any doubt have a chat and work out who goes where.
- However, if agreed to share the pool then always enter behind any angler already there.
- Move upstream or downstream with every few casts (unless you are alone).
- Fish being returned to the water should be released as carefully and quickly as possible. Ideally leave the fish in the water and remove the hook with long-nosed pliers without handling the fish.
- While catch and release fishing is widely promoted by some as a conservation minded approach to angling it remains the angler's choice. However, the catching of large numbers of fish in a day can impact on individual fish and also on the angling experience for others. Fish & Game advocate hooking and landing a limited number of fish per day.
- Fish being retained should be killed as quickly as possible, ideally by spiking or stabbing the brain slightly behind and above the eye (also known as iki jime - pronounced "iki jimi").
- Always respect the environment, wildlife, other anglers and members of the public.
- Remove waste nylon and personal litter from the river banks and parking places.
- The only way we can protect our rivers in the long term is to CHECK, CLEAN and DRY all your gear before entering another river or lake anywhere in New Zealand.

Remember to treat others as you would wish to be treated yourself!

National Regulations

The Sports Fishing Regulations

These regulations are set to ensure that:

- Fish populations are maintained and that the number of fish caught does not threaten the sustainability of the fishery.
- The quality of the fishing experience is maintained.
- Spawning areas are protected.
- Angling opportunities are not unnecessarily restricted.
- Incompatible methods of fishing are kept separate.
- Anglers use sporting methods.

The main angling rules and catch limits are shown in this booklet, but there are other rules in the Conservation Act, Freshwater Fisheries Regulations and other legislation which affect sports fishing. For example, a current fishing licence is required to fish for the species listed in the First Schedule, and it must be carried with anglers at all times when fishing. The licence is to be produced upon demand by a Fish & Game Ranger.

If you are in any doubt about sports fishing regulations, please contact your local Fish & Game office.

These regulations are approved by the Minister for Hunting and Fishing on the advice of the 12 regional Fish & Game Councils. The Fish & Game licence allows an angler to fish New Zealand wide (except Taupō).

REGULATIONS

The Auckland/Waikato Region offers a wide diversity of fishing opportunities with many lake and river fisheries. Three lakes within one hour of Auckland City are regularly stocked with trout, and wild trout are present in the Mangatawhiri and Mangatangi reservoirs. There is also good trout fishing in the Coromandel Ranges with most rivers having easy access and high scenic values. Further south there are numerous spring-fed trout streams in the South Waikato, and many backcountry fisheries throughout the King Country including the headwaters of the Waipa, Whanganui, Whakapapa, and Awakino Rivers. The Waikato River has an abundant brown trout population, and the hydro-lakes provide excellent lake fishing. Coarse fisheries are present in most lakes north of Hamilton, including Lake Pupuke and Hamilton Lake. Good coarse fishing is also available in the lower Waikato and Whangamarino Rivers. Over 100 fishing locations are listed on the interactive map in the Fishing Locations and Access section of the Auckland/Waikato Region's web page.

ACCESS INFORMATION

Over 100 fishing locations in the Auckland/Waikato Region alone are marked on the Outdoor Access Maps page (www.herengaanuku.govt.nz/maps). In addition, there are detailed descriptions of 31 river sections on the Auckland/Waikato Fishing Locations and Access page. The following paper pamphlets are also available from Auckland/Waikato Fish & Game:

- Trout fishing in the Auckland/Waikato Region
- Fishing in the lakes of the Auckland/Waikato Region
- Wanganui Headwaters
- Trout fishing in the Coromandel Ranges
- Trout fishing in South Waikato spring creeks
- Coarse fishing in the Auckland/Waikato Region

ALL REGIONS
REGULATIONS

Fish & Game New Zealand's Eastern Region offers a large range of fishing opportunities for both lake and river fishing. Access to much of the fishable water in the Eastern Region has been described in a series of comprehensive informational pamphlets. These can be obtained free of charge from most licence sellers and sports shops, as well as our Rotorua office or on the Eastern Region fishing pages on the www.fishandgame.org.nz website. These pamphlets have detailed maps of their respective catchments along with labelled access points and fishing information and outline the best fishing areas and methods to use. An active access programme is also being implemented throughout the region with extensive signage and tracks to guide anglers to many fishing opportunities.

The bush clad Lakes Waikaremoana and Waikareiti of Te Urewera provide spectacular boat and shoreline fishing for both brown and rainbow trout. The rivers of the area also provide opportunities to target headwater and spawning run fish. The Ruakituri River gives anglers a chance to catch world renowned strong trout while the Waiau River offers very high catch rates.

The Bay of Plenty has a large number of spectacular river fisheries from the Waioeka River in the east through the Rangitaiki, Tarawera and Kaituna catchments to the Ngamuwahine River in the west. Lakes like Aniwhenua and Flaxy also add to the diversity of fishing opportunities. The Rotorua lakes are the central feature of the region. Shoreline fly fishing and spin fishing can result in very good catch rates while boat fishing over the summer months provides action and fun for the whole family. Most of the Rotorua lakes lack suitable spawning rivers to sustain trout populations so supplementary stocking maintains high numbers for anglers. Lake Rotorua is not stocked but has one of the highest catch rates in the district while Lake Okareka also keeps anglers happy with high numbers of good quality fish. Lakes Tarawera, Okataina and Rotoiti can produce trophy fish. Lakes Rotoma and Rotoehu provide experiences for those wanting to get away from the crowds, and at Rotoma, the opportunity to chase tiger trout. Lakes Rotomahana and Tikitapu also have their own special charm and local devotees, while Lake Rerewhakaaitu attracts shore-based anglers targeting deep bodied fish. Smaller lakes with secluded bays and rising trout are there for the more adventurous anglers who want to "get off the beaten track".

The Eastern Region offers diverse angler experiences, high catch rates and big fish. There is something for everyone.

Code of Conduct

Please consider the rights of others and observe the anglers code of conduct

- Always ask permission from the land occupier before crossing private property unless a Fish & Game access sign is present.
- Do not park vehicles so that they obstruct gateways or cause a hazard on the road or access way.
- Always use gates, stiles or other recognised access points and avoid damage to fences.
- Leave everything as you found it. If a gate is open or closed leave it that way.
- A farm is the owner's livelihood and if they say no dogs, then please respect this.
- When driving on riverbeds keep to marked tracks or park on the bank and walk to your fishing spot.
- Never push in on a pool occupied by another angler. If you are in any doubt have a chat and work out who goes where.
- However, if agreed to share the pool then always enter behind any angler already there.
- Move upstream or downstream with every few casts (unless you are alone).
- Fish being returned to the water should be released as carefully and quickly as possible. Ideally leave the fish in the water and remove the hook with long-nosed pliers without handling the fish.
- While catch and release fishing is widely promoted by some as a conservation minded approach to angling it remains the angler's choice. However, the catching of large numbers of fish in a day can impact on individual fish and also on the angling experience for others. Fish & Game advocate hooking and landing a limited number of fish per day.
- Fish being retained should be killed as quickly as possible, ideally by spiking or stabbing the brain slightly behind and above the eye (also known as iki jime - pronounced "iki jimi").
- Always respect the environment, wildlife, other anglers and members of the public.
- Remove waste nylon and personal litter from the river banks and parking places.
- The only way we can protect our rivers in the long term is to CHECK, CLEAN and DRY all your gear before entering another river or lake anywhere in New Zealand.

Remember to treat others as you would wish to be treated yourself!

National Regulations

The Sports Fishing Regulations

These regulations are set to ensure that:

- Fish populations are maintained and that the number of fish caught does not threaten the sustainability of the fishery.
- The quality of the fishing experience is maintained.
- Spawning areas are protected.
- Angling opportunities are not unnecessarily restricted.
- Incompatible methods of fishing are kept separate.
- Anglers use sporting methods.

The main angling rules and catch limits are shown in this booklet, but there are other rules in the Conservation Act, Freshwater Fisheries Regulations and other legislation which affect sports fishing. For example, a current fishing licence is required to fish for the species listed in the First Schedule, and it must be carried with anglers at all times when fishing. The licence is to be produced upon demand by a Fish & Game Ranger.

If you are in any doubt about sports fishing regulations, please contact your local Fish & Game office.

These regulations are approved by the Minister for Hunting and Fishing on the advice of the 12 regional Fish & Game Councils. The Fish & Game licence allows an angler to fish New Zealand wide (except Taupō).

Many Taranaki trout fisheries have their source within either the Te Papakura o Taranaki (Egmont) or Tongariro National Parks and provide a high-quality angling experience in a scenic and un-crowded environment. In the west more than 40 small to medium sized trout streams radiate from the base of Taranaki Maunga offering a diversity of angling opportunity. These streams provide quality 'sight fishing' for large brown trout, while rainbow trout fishing is also available in several lakes, in the Waingongoro River between Eltham and the sea and in the Kaupokonui Stream. Further to the east within the Ruapehu district are some of the most productive rivers in the region including the Mangawhero River and also the Manganuioteao River, which is a nationally important brown and rainbow trout fishery offering a quality backcountry angling experience. Finally, for something different or as a great way to introduce children to fishing, Whanganui has a number of lakes that provide easy fishing for perch within a few minutes of the city.

National Regulations

The Sports Fishing Regulations

These regulations are set to ensure that:

- Fish populations are maintained and that the number of fish caught does not threaten the sustainability of the fishery.
- The quality of the fishing experience is maintained.
- Spawning areas are protected.
- Angling opportunities are not unnecessarily restricted.
- Incompatible methods of fishing are kept separate.
- Anglers use sporting methods.

The main angling rules and catch limits are shown in this booklet, but there are other rules in the Conservation Act, Freshwater Fisheries Regulations and other legislation which affect sports fishing. For example, a current fishing licence is required to fish for the species listed in the First Schedule, and it must be carried with anglers at all times when fishing. The licence is to be produced upon demand by a Fish & Game Ranger.

If you are in any doubt about sports fishing regulations, please contact your local Fish & Game office.

These regulations are approved by the Minister for Hunting and Fishing on the advice of the 12 regional Fish & Game Councils. The Fish & Game licence allows an angler to fish New Zealand wide (except Taupō).

The Hawke's Bay offers a huge range of angling opportunities, with some of the best and easiest access in the country. The region's rivers provide some spectacular headwater fishing as well as year-round lowland angling. Lake Tutira is the major lake fishery in the region. The fish provide excellent sport to both shore based and rowboat trolling anglers. The major river systems in the region are the Mohaka, Tutaekuri, Ngaruroro, Waipawa and Tukituki, all of which have comprehensive angler access pamphlets to assist anglers (see below). Both brown and rainbow trout are prevalent throughout the region. The dry fly fishing on the Tukituki, along with its many tributaries is a major attraction during the heat of the summer months as fish feed on the surface. The Ngaruroro and Mohaka River headwater wilderness fisheries are nationally rated and offer anglers the chance to catch trophy sized fish in gin clear waters. The middle and lower reaches of the region's rivers are easily accessible from a variety of public roads and provide anglers with vast amounts of fishable water.

ANGLER ACCESS PAMPHLET LIST

Comprehensive angler access pamphlets are available from licence agents, information centres, Fish & Game offices and the web for the following waters.

- Tukituki/Waipawa Rivers and tributaries
- Ngaruroro River Fishery
- Mohaka River Fishery
- Tutaekuri River Fishery
- Northern Hawke's Bay/Tutira Lake Fisheries

Lake Hawkston Fishing Access:

- Fishing is permitted only in daylight hours at Lake Hawkston. There is walk in access only. Please phone Dave McPhee 0275 422 665 prior to access of lake.

National Regulations

The Sports Fishing Regulations

These regulations are set to ensure that:

- Fish populations are maintained and that the number of fish caught does not threaten the sustainability of the fishery.
- The quality of the fishing experience is maintained.
- Spawning areas are protected.
- Angling opportunities are not unnecessarily restricted.
- Incompatible methods of fishing are kept separate.
- Anglers use sporting methods.

The main angling rules and catch limits are shown in this booklet, but there are other rules in the Conservation Act, Freshwater Fisheries Regulations and other legislation which affect sports fishing. For example, a current fishing licence is required to fish for the species listed in the First Schedule, and it must be carried with anglers at all times when fishing. The licence is to be produced upon demand by a Fish & Game Ranger.

If you are in any doubt about sports fishing regulations, please contact your local Fish & Game office.

These regulations are approved by the Minister for Hunting and Fishing on the advice of the 12 regional Fish & Game Councils. The Fish & Game licence allows an angler to fish New Zealand wide (except Taupō).

Code of Conduct

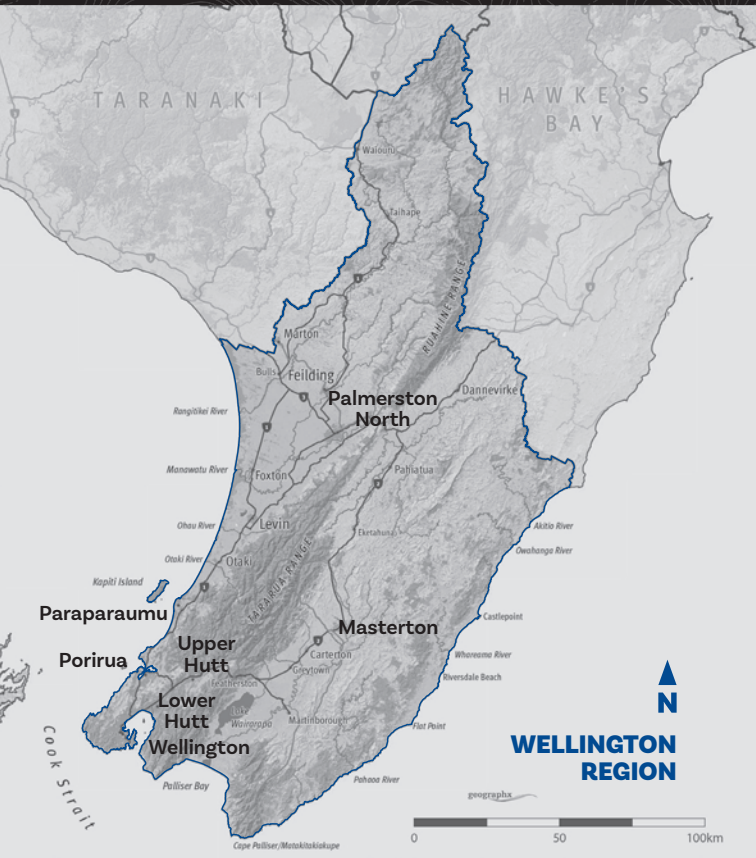

Please consider the rights of others and observe the anglers code of conduct

- Always ask permission from the land occupier before crossing private property unless a Fish & Game access sign is present.
- Do not park vehicles so that they obstruct gateways or cause a hazard on the road or access way.
- Always use gates, stiles or other recognised access points and avoid damage to fences.
- Leave everything as you found it. If a gate is open or closed leave it that way.
- A farm is the owner's livelihood and if they say no dogs, then please respect this.
- When driving on riverbeds keep to marked tracks or park on the bank and walk to your fishing spot.
- Never push in on a pool occupied by another angler. If you are in any doubt have a chat and work out who goes where.
- However, if agreed to share the pool then always enter behind any angler already there.
- Move upstream or downstream with every few casts (unless you are alone).
- Fish being returned to the water should be released as carefully and quickly as possible. Ideally leave the fish in the water and remove the hook with long-nosed pliers without handling the fish.
- While catch and release fishing is widely promoted by some as a conservation minded approach to angling it remains the angler's choice. However, the catching of large numbers of fish in a day can impact on individual fish and also on the angling experience for others. Fish & Game advocate hooking and landing a limited number of fish per day.
- Fish being retained should be killed as quickly as possible, ideally by spiking or stabbing the brain slightly behind and above the eye (also known as iki jime – pronounced "iki jimi").
- Always respect the environment, wildlife, other anglers and members of the public.
- Remove waste nylon and personal litter from the river banks and parking places.
- The only way we can protect our rivers in the long term is to CHECK, CLEAN and DRY all your gear before entering another river or lake anywhere in New Zealand.

Remember to treat others as you would wish to be treated yourself!

REGULATIONS

The Wellington Region encompasses the area roughly from Waiouru, across to Norsewood and south to Cook Strait. It includes four large river catchments: the Rangitīkei, Manawatū, Ruamāhanga, and Te Awa Kairangi (Hutt) which provide great opportunities for principally brown trout river fishing. An extensive range of local angling opportunities ranges from spectacular wilderness backcountry streams in the Kaimanawa, Ruahine, or Tararua Forest Parks to highly productive rivers on the doorstep of urban centres of Wellington, Masterton, and Palmerston North.

UPPER RANGITĪKEI RIVER DESIGNATED WATERS LICENCE

This licence is available to all anglers with a Whole Season or Family Season fishing licence. The Designated Waters licence can be obtained online www.fishandgame.org.nz, whereupon an individual licence will be issued. The Designated Waters licence must be carried with you at all times while fishing, along with your Whole Season or Family Fishing licence. For further information phone 06 359 0409.

Lake Waitawa Fishing Access:

To access Lake Waitawa (Forests Lakes), please contact Forest Lakes Camping and Conference Centre (06) 364 8218 for permission.

National Regulations

The Sports Fishing Regulations

These regulations are set to ensure that:

- Fish populations are maintained and that the number of fish caught does not threaten the sustainability of the fishery.
- The quality of the fishing experience is maintained.
- Spawning areas are protected.
- Angling opportunities are not unnecessarily restricted.
- Incompatible methods of fishing are kept separate.
- Anglers use sporting methods.

The main angling rules and catch limits are shown in this booklet, but there are other rules in the Conservation Act, Freshwater Fisheries Regulations and other legislation which affect sports fishing. For example, a current fishing licence is required to fish for the species listed in the First Schedule, and it must be carried with anglers at all times when fishing. The licence is to be produced upon demand by a Fish & Game Ranger.

If you are in any doubt about sports fishing regulations, please contact your local Fish & Game office.

These regulations are approved by the Minister for Hunting and Fishing on the advice of the 12 regional Fish & Game Councils. The Fish & Game licence allows an angler to fish New Zealand wide (except Taupō).

- A farm is the owner's livelihood and if they say no dogs, then please respect this.
- When driving on riverbeds keep to marked tracks or park on the bank and walk to your fishing spot.
- Never push in on a pool occupied by another angler. If you are in any doubt have a chat and work out who goes where.
- However, if agreed to share the pool then always enter behind any angler already there.
- Move upstream or downstream with every few casts (unless you are alone).
- Fish being returned to the water should be released as carefully and quickly as possible. Ideally leave the fish in the water and remove the hook with long-nosed pliers without handling the fish.
- While catch and release fishing is widely promoted by some as a conservation minded approach to angling it remains the angler's choice. However, the catching of large numbers of fish in a day can impact on individual fish and also on the angling experience for others. Fish & Game advocate hooking and landing a limited number of fish per day.
- Fish being retained should be killed as quickly as possible, ideally by spiking or stabbing the brain slightly behind and above the eye (also known as iki jime - pronounced "iki jimi").
- Always respect the environment, wildlife, other anglers and members of the public.
- Remove waste nylon and personal litter from the river banks and parking places.
- The only way we can protect our rivers in the long term is to CHECK, CLEAN and DRY all your gear before entering another river or lake anywhere in New Zealand.

Remember to treat others as you would wish to be treated yourself!
