Protect Game Bird Resources And Our Hunting Traditions

- Understand and observe all hunting regulations and licensing requirements
- Support game bird management and habitat enhancement activities
- Take no more than our immediate needs
- Share our knowledge and foster ethical attitudes and behaviour in hunting companions and youth

Care For The Environment

- Remove all rubbish from the hunting area and dispose of offal and carcasses responsibly
- Use non-toxic shot and biodegradable products.

Respect The Rights Of Others

- Respect private property and always obtain access permission

For further guidance about responsible game bird hunting read the full Code of Conduct at www.fishandgame.org.nz

Stop The Spread Of Aquatic Pests

Protect our waters: **CHECK, CLEAN, DRY.** Check dogs, boots, decoys, boats and their trailers before you leave the area.

Hunting Licence Valid Nationwide

All game bird hunting licences can be used in all Fish & Game New Zealand regions. Day licences are valid only on or after the second Monday of the new season. It's important to note that if you're hunting in other regions you need to read up on the local regulations at www.fishandgame.org.nz. Fish & Game New Zealand sports fish and game licences are issued online, are processed electronically and comply with the Electronic Transactions Act 2002. Licences are issued centrally by a person authorised to issue licences on behalf of each Fish and Game Council.

Game Bird Habitat Stamp

A game bird habitat stamp must be displayed on every licence to hunt or kill game¹. The purpose of the Habitat Stamp Programme is to raise funds for habitat enhancement. Five dollars (\$5)² of the game licence fee is assigned to the stamp as income for the programme.

If you own or help manage suitable game bird habitat including wetlands, you are welcome to apply for funds raised from the habitat stamp programme. To apply see the Game Bird Habitat Trust website <https://fishandgame.org.nz/environment/protecting/protecting-nz-game-bird-habitats/the-nz-game-bird-habitat-trust> for details. Applications close June 30.

Hunting In The Hawke's Bay

The Hawke's Bay Fish and Game region is defined by river catchments, extending north to the Mohaka, west to the Ngaruroro, and southwest to encompass the Tukituki systems, with the southern border reaching the Tautane Stream just south of Cape Turnagain.

Waterfowl

The mallard, grey duck and hybrids are the most popular game birds of the region. These species respond well to calling and decoying and can be found on most of the region's rivers, streams, dams and lakes. Shoveler are a transient population for most of the season and are renowned for their fast flying and elusiveness.

There are extensive hunting opportunities in the riverbeds of the region. Access is good and well-marked with signs.

A little time spent checking out backwaters pre-season can pay dividends during the season.

Paradise shelduck are wide-spread and can be hunted successfully in most locations. Low-lying farmland with water nearby is ideal for hunting using silhouette decoys. If you want to target parries, the pasture lands and riverbeds are a good place to start. Most landowners are only too happy for hunters to target parries on pasture if they are approached and asked first.

The Hawke's Bay region administers a number of Controlled Shooting Areas throughout the region. Periodically vacancies arise, creating a wetland enhancement and shooting opportunity for local shooters. If you want to shoot this season but don't have anywhere to hunt, give our local Fish and Game office a call.

Upland Game

Hawke's Bay hosts a good population of ring-necked pheasant and varying numbers of California quail, with the best results achieved in scrubby river margins and forestry plantations with blocks of young trees. Pheasants are predominantly hunted in our major river systems with the Waipawa, Tukituki, Ngaruroro and Tutaekuri normally well worth a look. The best hunting is generally where good cover and watering opportunities are found (i.e. river basins), especially where these areas border orchards and/or assorted cropping areas. For most of these areas a dog is recommended as an easy way to cover ground effectively.

A Couple Of Things To Remember

Access is a privilege not a right so if in doubt, please ask! Landowners frequently have paradise duck and swan problems and often appreciate flocks being dispersed by hunters. Often, they might offer the opportunity to shoot a vacant pond. In any case the personal courteous approach is by far your best bet.

Please do not leave the bodies or parts of shot game on the hunting ground. If carcasses are left in the field, it can encourage unwanted predators as well as ill feeling from other hunters and the non-hunting public. Please make yourself familiar with the Closed Game Areas and Wildlife Refuges scattered throughout Hawke's Bay.

Wildlife Refuges

1. The bed of the Tuki Tuki River between Waimarama Bridge and a line running from the north of the Mangangara Stream to the road at the southwestern corner of Section 9 and 15 in the Te Mata Survey District (8km upstream of the Waimarama Bridge)
2. Lakes Tutira, Orakei, and Waikopiro and certain surrounding land
3. Horseshoe Lake, Elsthorpe
4. The property of R H, J R, and T R Hartree, Puketitiri
5. The Westshore Ponds
6. The spit south of the mouth of the Ngaruroro River

Poaching Problems?

We have set up a **0800 POACHING** (0800-762-244) number. If you witness any offending let us know as soon as possible.

Wetland Creation

For information and advice on wetland creation contact the staff at your local Fish & Game offices. Wetlands in the Hawke's Bay Region are now rare. In some parts less than 1% of the original wetlands remain. The Habitat Trust fund is one source of funding for enhancement, purchase or development of wetlands. If you have a proposal to create or enhance a large area of wetland, we may be able to assist you obtaining some funding.

- Respect the resource, value our game birds and eat what we shoot

Protect Game Bird Resources And Our Hunting Traditions

- Understand and observe all hunting regulations and licensing requirements
- Support game bird management and habitat enhancement activities
- Take no more than our immediate needs
- Share our knowledge and foster ethical attitudes and behaviour in hunting companions and youth

Care For The Environment

- Remove all rubbish from the hunting area and dispose of offal and carcasses responsibly
- Use non-toxic shot and biodegradable products.
- Use established tracks and roads

Respect The Rights Of Others

- Respect private property and always obtain access permission
- Be considerate of non-hunters
- Be aware of our safety and the safety of others when hunting

- Comply with the Arms Act 1983 and always follow the 7 Firearms Safety Rules:
 1. Treat every firearm as loaded
 2. Always point firearms in a safe direction
 3. Load a firearm only when ready to fire
 4. Identify your target beyond all doubt
 5. Check your firing zone
 6. Store firearms and ammunition safely
 7. Avoid both alcohol and drugs when handling firearms

For further guidance about responsible game bird hunting read the full Code of Conduct at www.fishandgame.org.nz

Stop The Spread Of Aquatic Pests

Protect our waters: **CHECK, CLEAN, DRY.** Check dogs, boots, decoys, boats and their trailers before you leave the area.

Hunting Licence Valid Nationwide

All game bird hunting licences can be used in all Fish & Game New Zealand regions. Day licences are valid only on or after the second Monday of the new season. It's important to note that if you're hunting in other regions you need to read up on the local regulations at www.fishandgame.org.nz. Fish & Game New Zealand sports fish and game licences are issued online, are processed electronically and comply with the Electronic Transactions Act 2002. Licences are issued centrally by a person authorised to issue licences on behalf of each Fish and Game Council.

Game Bird Habitat Stamp

A game bird habitat stamp must be displayed on every licence to hunt or kill game¹. The purpose of the Habitat Stamp Programme is to raise funds for habitat enhancement. Five dollars (\$5)² of the game licence fee is assigned to the stamp as income for the programme.

If you own or help manage suitable game bird habitat including wetlands, you are welcome to apply for funds raised from the habitat stamp programme. To apply see the Game Bird Habitat Trust website <https://fishandgame.org.nz/environment/protecting/protecting-nz-game-bird-habitats/the-nz-game-bird-habitat-trust> for details. Applications close June 30.

Hunting Taranaki Waterfowl

The Taranaki Region has many rivers and streams, coastal dune lakes and ponds that provide good habitat for waterfowl. This translates into consistently good hunting and Taranaki duck hunters are among the most successful in the North Island.

Mallard duck is the predominant game species and in addition to traditional hunting from maimai on ponds and lakes, jump shooting along streams, rivers, drains and farm oxidation ponds is also productive. Good evening shooting can be had throughout the season on farm dams and wet paddocks, or on recently harvested stubble fields and in paddocks where supplementary feed is being fed to stock.

Paradise shelduck are widespread throughout the region and in particular around the Taranaki ring-plain. Farmers and vegetable growers often welcome hunters harvesting these birds which may otherwise impact on areas of new grass or recovering pasture or crops at other times of the year. To further assist with managing their impact a special season for paradise shelduck will also be held in late February and early March 2027 in Area C (Taranaki) to disperse birds after the moult. All hunters, including land occupiers are required to hold a permit to hunt during a special season. Please contact the New Plymouth office of Fish & Game NZ in early February 2027 for details.

Similarly, landowners are often supportive of hunting pūkeko from wetlands adjacent to maize growing or other cropping areas, where they can cause damage at planting time. Pūkeko numbers are greatest around the Taranaki ring-plain and south along the coast to Whanganui, and the extended season provides an additional hunting opportunity after the duck season has finished.

Upland Game

Scattered populations of pheasant and California quail are present in the coastal sand country and lowland pine plantations. There are also good pheasant populations, which are often overlooked, in the back country, particularly where there are scrubby rough areas adjacent to streams and rivers. Driving around these areas early or late in the day and particularly in spring is a good way to identify productive spots and make initial approaches regarding access.

Access

Most hunting opportunities are on private farmland and the appropriate permission should be obtained. In this region many farmers are receptive to a polite request; just remember to leave the gun and dog behind when you make your first approach. Often farmers are hunters themselves and while access over opening weekend may not be an option there may be opportunities later in the season.

Permits are available through a weekly ballot from the New Plymouth office of Fish & Game for upland game hunting in several Whanganui coastal areas, including Harakeke Forest and Nukumarū Recreation Reserve. Contact the New Plymouth office for the latest opportunities and how to obtain a permit for these.

- Retrieve all shot birds promptly and dispatch wounded game birds quickly and humanely
- Respect the resource, value our game birds and eat what we shoot

Protect Game Bird Resources And Our Hunting Traditions

- Understand and observe all hunting regulations and licensing requirements
- Support game bird management and habitat enhancement activities
- Take no more than our immediate needs
- Share our knowledge and foster ethical attitudes and behaviour in hunting companions and youth

Care For The Environment

- Remove all rubbish from the hunting area and dispose of offal and carcasses responsibly
- Use non-toxic shot and biodegradable products.
- Use established tracks and roads

Respect The Rights Of Others

- Respect private property and always obtain access permission
- Be considerate of non-hunters
- Be aware of our safety and the safety of others when hunting

- Comply with the Arms Act 1983 and always follow the 7 Firearms Safety Rules:
 1. Treat every firearm as loaded
 2. Always point firearms in a safe direction
 3. Load a firearm only when ready to fire
 4. Identify your target beyond all doubt
 5. Check your firing zone
 6. Store firearms and ammunition safely
 7. Avoid both alcohol and drugs when handling firearms

For further guidance about responsible game bird hunting read the full Code of Conduct at www.fishandgame.org.nz

Stop The Spread Of Aquatic Pests

Protect our waters: **CHECK, CLEAN, DRY.** Check dogs, boots, decoys, boats and their trailers before you leave the area.

Hunting Licence Valid Nationwide

All game bird hunting licences can be used in all Fish & Game New Zealand regions. Day licences are valid only on or after the second Monday of the new season. It's important to note that if you're hunting in other regions you need to read up on the local regulations at www.fishandgame.org.nz. Fish & Game New Zealand sports fish and game licences are issued online, are processed electronically and comply with the Electronic Transactions Act 2002. Licences are issued centrally by a person authorised to issue licences on behalf of each Fish and Game Council.

Game Bird Habitat Stamp

A game bird habitat stamp must be displayed on every licence to hunt or kill game¹. The purpose of the Habitat Stamp Programme is to raise funds for habitat enhancement. Five dollars (\$5)² of the game licence fee is assigned to the stamp as income for the programme.

If you own or help manage suitable game bird habitat including wetlands, you are welcome to apply for funds raised from the habitat stamp programme. To apply see the Game Bird Habitat Trust website <https://fishandgame.org.nz/environment/protecting/protecting-nz-game-bird-habitats/the-nz-game-bird-habitat-trust> for details. Applications close June 30.

Any game bird licence holder who obtains our Game Bird Hunting Access permit, may hunt the following wetlands after opening weekend for the remainder of the game season, or dates as printed in the permit booklet:

- Wairarapa Moana (Lake Wairarapa)
- Lake Omanu near Foxton (after Kings' Birthday Weekend)

BLUE DUCK - WHIO, A THREATENED SPECIES.

In parts of the country whio (blue duck) populations are increasing in response to predator control, and birds are being seen from time to time on farmland in the vicinity of forested streams. They commonly do low level flights up and down streams in early morning and evening meaning a quick shooter can easily mistake them in low light. This threatened species is fully protected, and apart from setting conservation efforts back a step, killing one can mean a \$100,000 fine.

Please take care to identify your target beyond all doubt so whio, along with all of our other protected birds, are not mistakenly shot.
